DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 7, 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fisher USP 3,860,984 in view of Genovese et al. USP 5,301,630.

Fisher discloses a similar device comprising a(n):

- Pair of main members (20, 24; fig. 12)
- Plurality of inflatable tubular members (14, 16)

Fisher does not disclose the Plurality of inflatable tubular members (14, 16) supporting a plurality of illumination sources

Genovese et al. teaches the use of a plurality of illumination sources (37) for the purpose of providing for a means of illumination during the night (C5/L15-18).

It would have been obvious to one having ordinary skill in the art at the time of the invention to have employed the use of a plurality of illumination sources, as taught by Genovese, on the inflatable tubular members of in the device of Fisher for the purpose of providing for a means of illumination during the night.

Allowable Subject Matter

3. Claims 1-6 are allowed over the prior art of record.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
